Music Producer Zane Kuchera Gets Involved With Artists From Around The World During A Worldwide Pandemic To Create And Release His New Album "INVOLVED 2020".

Boston USA Immediate Release – Music Producer And Multimedia Production & Design Specialist, Zane Kuchera Releases His New Album "INVOLVED 2020" on iTunes / Apple Music, Amazon Music, Pandora, Spotify, Tidal, Deezer, and YouTube / YouTube Music On June 5th, 2021.

Focusing on the jazz, pop, and adult contemporary music compositions and small ensemble arrangements with a 4 piece band, strings, and brass, "Involved 2020" contains instrumental versions of songs Kuchera created during the isolating COVID-19 pandemic.

The 20 songs were produced in collaboration with lyricists living all over the world, including in New York, Idaho, California, Washington, Canada, India, the United Kingdom, Ireland, Hungary, and Australia, reaching out and connecting with other creatives through internet songwriting collaboration websites. As a composer, arranger, orchestrator, pianist, vocalist, and recording engineer, Zane produced these recordings and performed all of the instruments by himself, in his professional recording studio, in isolation.

Songs on the album are reminiscent of works by Stephen Sondheim, Paul McCartney, Chicago, John Bucchino, Stephen Schwartz, and Billy Joel, and include titles: A Good Life, Breaking News, Chasing Tomorrow, Dream Ago, Everything We Are, Hold Christmas In Your Heart, I Am Because You Are, Let In The Breezy, Lines By Default, Make It, Someday, Somewhere, Talking In

The Rain, Tearing Apart, The Road, There's A Way, Tiny Stars, To Be Your Son Again, Tradewinds, and Where Do You Go?
